Here's my Spring edition! It seems amazing that Lola and I have issued 75 of these. This is the second of three for 2008. We will have another for you in September.

In the past, several of you have asked for better scans of items so you can see better detail. We are working on setting up a web site where we will post scans of most items. It may be ready before the end of this month. But, in the meantime, if you need a better image, let me know and I will e-mail it to you.

Some of the highlights of this sale include lot 18 - a 3-piece gold set of JFK medals with the Statue of Liberty reverse. There is over 2 ounces of pure gold in this set, and even though 1000 sets are possible, most of those have been melted over the years.

Lot #9 is an unlisted Fort Greble, Rhode Island post exchange token. There are several nice contemporary counterfeits offered in this sale - lots 3, 54, 88, 104.

Lot 21 is a George Washington double-header electrocopy, ex-Garrett Sale. Lot 31 is a scarce walnut advertising plaque with the Brooklyn Bridge issued by Lord and Taylor.

There are several interesting encased coins, including #19, 43, and 114. And, as usual, we have several multiple lots that should generate bids in the \$10 range.

Hopefully there is something for you in this sale. We appreciate your business.

Have a Happy and Prosperous Spring
